

PROJECT SUPPORT GUIDELINES

PROJECT SUPPORT DESCRIPTION

Project Support grants are awarded to individuals, groups, and nonprofit organizations for specific arts projects and programs which are determined to be of value to the community. Concerts, performances, festivals, workshops, and readings are examples of projects eligible for funding through Project Support grants. Project Support grants have an at least one-to-one cash matching requirement.

Projects must include community engagement activities. This includes projects and activities undertaken by an organization or group as part of a mission strategy to build deep relationships between the organization/group and the communities in which it operates for the purpose of achieving mutual benefit. The City Arts Grants program is designed to provide financial support for arts programs and projects in Salt Lake City that merit public funding. There are four City Arts Grants categories, each with eligibility standards, guidelines, and review criteria. The Salt Lake City Arts Council Board places a priority on those programs that best reflect the Arts Council's mission and values.

City Arts Grants can support only those programs and projects which take place within Salt Lake City limits. Review Salt Lake City boundaries here: <https://www.slcc.gov/council/find-your-council-member/>

The City Arts Grants program is competitive and includes a rigorous application review process. A newly completed application must be submitted each year and **a grant award in one year does not guarantee an award for the following year**. The award of City Arts Grants is made at the sole discretion of the Salt Lake City Arts Council and the decision of the board is final.

Applicants may only submit **one** application annually. The exception is to applicants who wish to submit an Arts Learning application in addition to a General Support or Project Support application.

ELIGIBILITY

In order to be eligible for a Project Support grant, the applicant must:

- Be a 501(c)(3) nonprofit organization OR individual artist OR group of artists;

 - Project Support applicants may have a primary office located outside Salt Lake City limits, but funds requested may only go toward those projects and activities which are within the City's boundaries.

REVIEW PROCESS

The Grants Committee, comprised primarily of [Salt Lake City Arts Council board members](#) with knowledge of the arts community, educational system, and the community-at-large, will meet to review City Arts Grants applications. The Grants Committee includes new members each year.

Committee members review applications by grant category and provide preliminary scores to three sections of the application. Committee members then meet to have a comprehensive discussion on the merits of each application. During this meeting recommendations for funding are made. These recommendations are sent to the full Arts Council board for their review. The full board will make final decisions on all grant applications during their meeting. Applicants will be notified of Board decisions shortly after this meeting.

The Salt Lake City Arts Council Board places a priority on those programs that best reflect the Arts Council’s mission and values. Also of high importance are the following:

- **Community inclusion:** Applicants who conduct activities which make efforts to reach a broad and inclusive audience through location, affordability, technology, or engagement through a variety of means.
- **Sound Budget:** Applicants who present a balanced and detailed budget;
 - Applicants who fail to include grant amount requested in projected budget or do not show revenues matching expenses, may not be recommended for funding.
- **Benefit and Impact:** Applicants who clearly articulate social, educational, and or economic relevance for the community.
 - This may include contributing to vibrant creative neighborhoods, understanding the community served (geographic, cultural, economic, racial, educational relevance, etc.), utilizing partnerships or collaborations with diverse groups.
